Project Title: Challenge! Future Expedition!

- **Project Background:** Some university students paid attention to **elementary school students in low-income family**, as they may need **support to seek their future career**. To help elementary school students understand themselves from an objective view, and plan their future career beyond their current circumstance, they proposed a project about **supporting elementary school students' shaping career exploration**. Even though current situation caused prevent physical contact, **some activities would be conducted physically in a domestic level**, and **there would be an online meeting within participants from each economy**.
- **Project Outline: Online exchange activities and 2-days Offline Camp**, particularly focusing on **supporting low-income elementary school students' understanding oneself and exploring future career**
- **Period:** recommendation by **July 1**, conducting by **December 11**
- **Requirements: One (1) group of university students** which is about a group of 5
(Note. It would be much appreciated when all the recommended students are from different major, so they could provide various opinion.)
- **Expecting Outcomes:** Activity videos and pictures(including online meeting video), General manual for career education (relevant to all APEC member economy)
