PART B – STUDY REPORT

Acknowledgement
A brief statement of appreciation in recognition of any special assistance rendered to the candidate during the period of research should be included. It should be typed in single spacing and should not exceed one page in length.

Table of Contents
Titles of chapters, headings, and subheadings must be listed in the Table of Contents and must be worded exactly as they appear in the body of the report.

List of Tables and Figures
The numbers and the captions must be listed in the order they appear in the text.

List of Abbreviations/Nomenclature
Abbreviations or Nomenclature must appear after the lists of tables and figures arranged in alphabetical order.

1.0 PROJECT OVERVIEW
This chapter describes the introduction of the project where students are required to improve processes or come out with new ways in order to help the organization perform better. The topic for the study report needs to be approved by the Industrial Supervisor of the company you are in. This chapter also touches on the current situation/problem statement and also objective of the project.

2.0 LITERATURE REVIEW
Students are required to support the study report with at least FIVE (5) literature reviews from books, magazines, journals and internet sources.

3.0 METHODOLOGY
This chapter describes the relevant steps that will be undertaken to address the research questions. It is provides a description and discussion of the project process and the method used to obtain information. Students can choose interview, observation or using questionnaires to gather information.

4.0 FINDINGS
This chapter will analyze on the primary/secondary data that have been collected from the resources. It is called data analysis and interpretation. As the result, it shows the achievement of the findings.

5.0 RECOMMENDATION AND CONCLUSION
This chapter describes the recommendations or suggestions that will help the company improve the problem or current situation.

BIBLIOGRAPHY
APPENDICES

NOTE: For degree student, this study report is just a simple report where you are supposed to suggest or recommend new processes or ideas to help the company in any way. Make sure you get the cooperation from your Industrial Supervisor and start the report early. Combine Part A & Part B together.
